## The New York Racket

R. H. CAMPBELL, Prop. SHEETS BUILDING, SOUTH SIDE MAIN ST, JASPER, MO.]

### AN APPEAL TO TEACHERS

A. J. WRAY TALKS NORMAL TO THEM.

They Are Asked To Help Barton Co Get The Normal--How It Will Benefit Them.

Mr. A. J. Wray, chairman of the Normal Committee, and who has made an individual subscription of \$1000 to the Normal fund, sends the following appeal to the teachers and prospective teachers of Barton and adjoining counties:

To The Teachers Of Barton And Adjoining Counties.

Mr. Emmon: There has been an effort made to inform the farmers, merchants and mechanics of the advantages that would accrue to them if we can succeed in locating the South West Normal at Lamar, or within our County. These reasons are cogent, forceful and true. Now we believe that while the location of the South West Normal at Lamar would be of great benefit to the farmers, the merchants, the mechanics, the laboring men, and most all, if not all, of the people, yet we have overlooked another class of individuals that this be a very great benefit to: that is, the teachers and those desiring to engage in the profession of teaching. It is sometimes quite a problem for a young man or young woman to be able to attend a school of sufficient standing to enable them to be first-class, successful teachers. If a school of this character can be established in our midst, they can attend with very much less cost and expense than by having to go away from home a great distance to have this benefit.

Now, this school, if established here, will enable the girls and boys of our County, and adjoining Counties, who desire to fit themselves especially for teaching, to have all the advantages that are necessary to give them this information and training. This being true it occurs to us that the teachers of Barton County ought to assist in our efforts to locate the school in our midst. It is true that most of the teachers are not wealthy, but each one could contribute a little, and the many littles make the large amounts. So we would urge upon the teachers to give this matter careful consideration, and, if our ideas are correct, that it will be a great benefit to them and a great saving in the matter of acquiring an education and fitness for their chosen profession, they ought to come to the relief of the Committee by subscribing what they can to assist in raising the necessary funds to establish this school in our midst. So we urge upon the teachers of this County, and those adjoining, who would be greatly benefited by this, to send in their subscriptions, giving the amount, at once and get your names on the list for the amount that you can give, and help in this great work. And if the teachers have the time, being well acquainted with your patrons in the various dis-

tricts in which you have taught, and would be willing to solicit, we would be glad to furnish you subscription lists and let you call upon your patrons and friends who are interested in this great work and get additional subscriptions. In making this special appeal to the teachers, we do not want to be understood as omitting, or neglecting, any other class of people, as we believe all would be greatly benefitted in a financial way, and in many other ways, by the establishment of this school at Lamar. So, we should all be willing to do our part, be it little or much, to bring about this result. Respy submitted.

A. J. WRAY,  
Chairman Normal Com.

#### Dewey.

We are being visited by crayon picture men and soap agents and medicine men and lightning rod men until it will be necessary for the farmers' wives to form a protective association against agents.
